Training Opportunities to Advance Your Pharmacy Practice

The Colorado Pharmacists Society (CPS) is proud to connect you with *targeted* training and informational programs designed to help you expand advanced services, enhance your skills, and secure payment for professional services. Programs are tailored to fit your practice goals, and we're here to help you succeed.

Training Recommended for Everyone

Provider Status and Scope: Colorado Specific Training

Presented by Emily Zadvorny, PharmD, BCPS, Executive Director for the Colorado Pharmacists Society and Sarah Bow, PharmD; 1 contact hour

[Vimeo - Scope of Scope and Status of Provider Status](#)

This free video recording covers the basic practice and payment laws and regulations specific to Colorado. The participant will gain a general understanding of what is allowed in practice in Colorado, and the potential ways to get paid for services in Colorado. This is foundational knowledge that anyone wishing to offer advanced services or get paid for these services should understand.

CPS Sponsored Training Opportunities

Why CPS Sponsorship? At CPS, we're committed to helping practice sites evolve in the ever-changing healthcare landscape. Our sponsorship program is designed to give you the flexibility to select the basic training that aligns with your practice setting, so you can expand patient care services and/or pursue billing and reimbursement for those services. Selected participants should be in position to use these training courses to help optimize new or existing services at their practice site.

- **Billing and Reimbursement for Patient Care Clinical Services Certificate**

Hosted by ASHP

Total hours: 22.5 contact hours, Value = \$560

The Billing and Reimbursement for Patient Care Clinical Services Certificate is intended for pharmacists who are engaged in providing clinical services in a variety of practice settings, and others who are involved in billing for these services. Mary Ann Kliethermes, BS Pharm, PharmD, FAPhA, FCIOM; a recognized leader in reimbursement for pharmacist care services; serves as the editor for this one-of-a-kind, comprehensive resource.

- **Pharmacists Getting Paid Through Collaborative Clinical Services**

Hosted by APhA

Total hours: 12.5-hours, Value = \$599

This 12.5-hour certificate training program is designed to show pharmacists how to implement clinical care services that improve patient outcomes, enhance collaboration with other healthcare workers, and increase profits for the organizations. The modules discuss the pharmacists' role and impact in this work, review the services, provide medical billing and coding information, and share insight into how to manage potential barriers that may arise. This certificate training program is a mixture of podcast, e-learning, webinars, and interactive cases.

- **Billing and Contracting for Outpatient Clinical Pharmacy**

Hosted by ACCP

Total hours: 18-hours, Value = \$699.95

This program is designed to provide clinical pharmacists and clinical pharmacy administrators with the knowledge and skills to explore, identify, and implement billing and contracting strategies for outpatient clinical pharmacy services. Understanding the complexities of applying billing and contracting strategies that vary across states, regions, and institutions, the program will emphasize navigating that landscape to determine opportunities applicable in your unique setting. This contemporary program is delivered primarily via self-paced, on-demand modules developed by billing and contracting experts. The convenience of the on-demand content will be supplemented by quarterly live consultancy sessions and an online networking and learning Community. You'll develop a network of peers and experts with diverse experience in billing and contracting. Through the on-demand modules, you will complete several application assignments that will provide important foundational guidance as you determine an individualized plan for billing and/or contracting in your practice.

Data and Analytics Trainings:

Basics of Data Analytics Certificate

Hosted by ASHP

Total hours: 16.25-contact hours, Cost ≈ \$560

The use of big data has the potential to transform the healthcare industry from a fee-for-service model to value-based care. This emerging area faces several challenges on this path. To help combat these challenges, the *Basics of Data Analytics* certificate provides education on the basic concepts and tools used for data analysis. This certificate provides 16.25 contact hours and includes an opportunity for learners to apply their newly acquired skills in a data analysis project.
